

REMARKS

Claims 68-97 are active in the present application.

The present invention relates to a process of treating permeable architectural materials by impregnation with material that provides a protective effect.

Specification Amendments

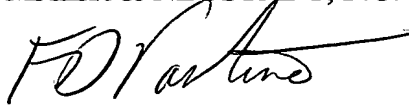

In view of the non-entry of the preliminary amendment filed with the application on January 25, 2002, and in response to the Official Letter from the Patent Office of March 11, 2004, applicants hereby amend the portions of the present specification that were amended in the preliminary amendment that was filed with the application. The appropriate amendments have been made the strike-through of matter to be deleted and by the underlining of matter to be added or inserted into the text in accordance with the requirements of 37 CFR 1.121. Entry of the amendments to the text is respectfully requested.

With the presentation of the amendments to the text in this amendment, the amendments to the text on page 2 of the amendment filed January 30, 2004 can be ignored.

It is now believed that the application is in proper condition for publication.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
